Charging Station with Payment Integration

Public EV chargers + UIC Bezel 8 =
Turn key Payment with Credit Card Solution

EVEN Recharge and UIC Payworld have partnered to offer the EV charging industry with the first of its kind low cost, out of the box solution that allows you to easily install a Level 2 charger that can accept all major credit cards, ApplePay and GooglePay. All that is needed is power, and an internet connection, which makes the entire solution literally plug and play.

Open Payment System

Accept all card payment methods.

24/7 Monitoring

Real-time event notification and remote monitoring.

Easy Charge

Simplify the life of EV drivers, easy to use, no App, membership or subscription required.

Easy Installation

Plug and play installation, no complicated EV charger commissioning or configurations required.

OCPP Supported

Manage the charging station and payment by using UIC cloud management platform.
